### **Kameron Professional, Leadership, and Staff Development Services**

---

Kameron professional development group is passionate about empowering and enabling life-long learning and increasing your skills and knowledge in areas that are most likely to help your professional success. Our goal is to benefit our adult students' careers, families, and communities. "The same principals that help an adult have a good day at work also help a child have a good day at school," notes Margaret Ross. "So, time invested with us provides benefits to your real life."

Learning keeps you young and it is never too late to "train your brain." Creatively working together, we can personally benefit and strive to improve the well-being of society's adults, children, and families.

**Workshops:** Each professional training engagement begins with a needs assessment and survey. Each learning engagement is customized for your company, cause, or organization. We don't believe in "drive by" development. We take the responsibility seriously. We train your leaders, empower your mentors, trouble shoot the process, and measure progress.

**Mini Events - Speaker or Lunch and Learn trainer:** If your need is an event training (conference, leadership retreat, etc.) or a lunch and learn mini learning experience, we are well versed and experienced.

#### **Kameron Professional Development Workshop Sampler**

- **Positive Diversity :** The Real Secrets of Thriving in Any Environment
